

## Technology Professional Liability

# Technology Professional Liability

**Our team of experienced underwriters has extensive knowledge in risk assessment and prides itself on delivering customized and innovative insurance solutions.**

Technology Professional Liability addresses the liability of technology product and service providers. The coverage includes technology errors and omissions, telecommunications liability, internet professional services, internet media liability and technology consulting and training services. The universe of technology companies covers a broad spectrum of risks including pre-packaged and custom software development, software analysis, integration and implementation, electronic and computer hardware manufacturers, telecommunications, internet service providers, and systems outsourcing. Catlin's appetite matches the breadth of technology risks.
